Get involved.

The TJPA recognizes how important the Temporary Terminal Facilities are to you and to your neighborhood. We invite you to join us at our next public outreach meeting on December 13, 2007, to learn about the proposed street modifications required as part of the Temporary Terminal Project.
Dear Neighbor:

The Transbay Joint Powers Authority (TJPA) is developing a new Transbay Transit Center which will replace the current Transbay Terminal at First and Mission streets in San Francisco. The Transit Center will help alleviate congestion by removing over 8,000 daily auto trips from local highways and serve as a modern regional transit hub connecting the Bay Area and the State through nine transit systems: AC Transit, BART, Golden Gate Transit, Greyhound, Muni, SamTrans, WestCAT, Caltrain, and future high-speed rail from San Francisco to Los Angeles.

We will construct a new Temporary Terminal Facility located between Howard, Beale, Main and Folsom streets to serve passengers during the five-year time frame required for demolition of the old Transbay Terminal and construction of the new Transbay Transit Center. Once the new Transbay Transit Center is completed, the Temporary Terminal area will be developed as a 1.1-acre park and approximately 700 residential units by the San Francisco Redevelopment Agency.

Please join us to learn about proposed revisions to traffic circulation patterns and curbside designations at our next public outreach meeting, which will be held:

**Date:** December 13, 2007  
**Time:** 5:30 pm until 7:30 pm  
**Location:** Port of San Francisco Bayside Conference Rooms 1-4  
Pier One, The Embarcadero  
San Francisco, CA
